

The **Shot Gun**™

2-Part Adhesive Cartridge Dispensing System

- Dispenses both controlled single shots and continuous beads
- Table-top comfort with foot pedal activation
- Accommodates MIXPAC® 200 ml or 400 ml guns and adhesive cartridges
- 100's of 2-component adhesives available in 1:1, 2:1, 4:1 and 10:1 ratio MIXPAC® cartridges
- Swivel gun mount, and overall height adjustment for most convenient work position
- Multifunction power entry module (115 vac/250 vac) allows use anywhere in the world
- Highest quality parts and construction
- Pinch-off valve assures accurate and dripless dispensing
- Standard 100 psi air hookup
- Small footprint base plate model is standard
- Optional 30" x 24" high density polyethylene work table base available

Bridging the gap between hand-held systems and expensive meter mix equipment

- Eliminates adhesive waste
- Reduces operator fatigue
- Increases productivity
- Sturdy, reliable, portable
- Easy to set up and operate
- Fraction of the cost of most meter mix equipment

Optional work table unit includes 30" x 24" high-density polyethylene (HDPE) work table

Swivel gun mount, and overall height adjustment for most convenient work position

Safety switch disables plunger while changing cartridge

Accommodates either 200 ml or 400 ml pneumatic MIXPAC® guns (400 ml shown)

100's of 2-component adhesives available in 1:1, 2:1, 4:1 and 10:1 ratio MIXPAC® cartridges

Reliable, low cost MIXPAC® motionless mixers (There's one for EVERY application!)

Pinch-off valve assures accurate and dripless dispensing

44" vertical channel allows height adjustment comfortable for any operator or application

Multi-function power entry module (115 vac/250 vac) allows use anywhere in the world

Dispenses timer-controlled single shots or continuous beads

Standard 100 psi air hookup

The ShotGun™ 2-part adhesive cartridge dispensing system fills the void between hand-held cartridge dispensing systems and those expensive bulk meter, mix and dispensing (MMD) systems.

Features like hands free, foot pedal operation, adjustable height and angle rotation, drip-preventative pinch-off valve and the optional 30" x 24" high-density polyethylene (HDPE) work table make this an all-in-one portable workstation that is unequalled in the industry.

The ShotGun™ operates in three versatile modes:

- Mode 1:** The timer controls the stroke of the dispensing gun, thus allowing the operator to set the shot size.
- Mode 2:** The timer controls the pinch-off valve which assures dripless dispensing of low viscosity adhesives.
- Manual:** Dispensing occurs as long as the foot pedal is depressed.

Designed for both domestic and international markets, the ShotGun™ features a multi-function power entry module that enables 115vac or 250vac operation.

Width: 30" (with optional work table base)
Depth: 24" (with optional work table base)
Height: 44"
Weight: 50 lbs. (with optional work table base)
Power: 115 vac or 250 vac

The ShotGun™ is designed to utilize the world-famous MIXPAC® cartridge dispensing system.

The MIXPAC® system is the most popular among leading adhesive manufacturers and most respected by end users throughout the world.

Choose either the MIXPAC® 200 ml system or MIXPAC® 400 ml system. There are hundreds of 2-component adhesives prepackaged and readily available in MIXPAC® cartridges, or ask your adhesive formulator about packaging your adhesive in the MIXPAC® system.

Volumetric ratios of 1:1, 2:1, 4:1 and 10:1 are available.

- **Fast to set up**
- **Easy to use**
- **Quick cleanup**
- **Increase employee productivity and safety**
- **Reduce material and hazardous waste**
- **Better adhesive performance and ratio control**
- **Repeatable accuracy with cartridge simplicity**
